2023/2024

MUSIC  
POETRY  
LOVE

**This program blends a repertoire of French classical music interwoven with poetry. It creates a captivating journey of passion, love, and emotional imprints.**

**The artists alternate between musicality and poetic recitation, thereby creating a unique atmosphere that pays homage to the very French romanticism.**

**We would be delighted to offer programmers and event organizers this 70-minute concert. It can easily be integrated into a multidisciplinary program or as part of a specific standalone event.**

**The quality of its performance and the diversity of its works make it a unique and accessible experience for a wide audience**
